

SCRUMPTIOUSLY SWEET POTATO CASSEROLE

How to Bake & Enjoy This Holiday Classic

Allow potatoes and topping to sit at room temperature for a good hour before baking to take the chill off. Preheat oven to 350°F. Place foil container on sheet pan for ease of handling. Bake, uncovered, for 30 minutes. Stir. Crumble topping over evenly and no snitching. Bake, uncovered, 20-30 minutes or more, until center temperature reaches 165°F and topping is browned and bubbly. Baking time will vary depending on the size of potatoes you ordered, how long they sat out prior to baking, as well as how many other items are in your oven.
